📍 Siliguri, West Bengal, India – 734006

PROFESSIONAL SUMMARY

Backend developer with 4+ years of hands-on experience building and maintaining scalable, reliable server-side applications using Node.js, TypeScript, and AWS. Comfortable working across the full backend lifecycle — from designing RESTful and event-driven APIs to deploying on cloud infrastructure and writing automated tests. Experienced collaborating in cross-functional teams, contributing to real-time systems, third-party integrations, and e-commerce platforms. Strong foundation in PostgreSQL, MongoDB, MySQL, CI/CD workflows, and Agile delivery. Eager to contribute meaningfully to a product team and continue growing as an engineer.

TECHNICAL SKILLS

- **Programming Languages:** Node.js, TypeScript, JavaScript (ES6+), PHP, jQuery
- **Backend Frameworks:** Fastify, Express.js, NestJS (basics), Serverless Framework
- **Databases:** PostgreSQL, MongoDB, MySQL, Firebase Firestore
- **Cloud & DevOps:** AWS (Lambda, API Gateway, S3, EC2, CloudWatch), Docker, Digital Ocean, CI/CD, Laravel Forge
- **ORM / Query Builders:** Prisma, Sequelize
- **AI Tools:** Codex, Claude Code, Antigravity, Github Copilot
- **API & Architecture:** RESTful APIs, GraphQL (basics), Microservices, Event-Driven Architecture, Real-Time Systems
- **Testing & Documentation:** Jest, Swagger, Postman
- **CMS & E-Commerce:** WordPress, WooCommerce
- **Tools:** Git, GitHub, VS Code, pgAdmin, phpMyAdmin, Beekeeper Studio
- **Project Management:** Jira, Confluence, Trello, Agile/Scrum Methodologies

WORK EXPERIENCE

Backend Developer
Appycodes

Jan 2021 – Present
Siliguri, West Bengal, India

- Collaborated with a team of 5 engineers on multiple concurrent enterprise projects, working closely with clients to understand requirements and contribute to well-scoped, on-time deliverables.
- Contributed to the development of **Bloc Ad-Manager**, a real-time bidding and campaign management platform built with Node.js, TypeScript, PostgreSQL, and Stripe; helped implement core features currently in testing, aimed at improving campaign efficiency by 40% and reducing setup time by 50%.
- Played a key role in building and scaling **Zonely**, a real-time chat and calling platform (Node.js, Fastify, MongoDB, Firebase) that achieved 10,000+ downloads, handled 500+ concurrent users at 99.9% uptime, and reduced latency by 35% through event-driven design.
- Developed **Ariso**, a Google Workspace integration module (Gmail, Google Calendar, Google Drive) that processes 5,000+ daily events with 100% data accuracy for 500+ enterprise users; implemented using AWS Lambda, API Gateway, and S3 for serverless event capture and structured storage.
- Built backend features for **Creoate**, a B2B e-commerce order customization and shipping automation platform (WooCommerce, Node.js, AWS Lambda, MySQL) that improved customer engagement by 30%, increased order completion by 20%, and eliminated 70% of manual shipping processes.
- Helped set up CI/CD pipelines, contributed to API documentation using Swagger, and wrote Jest-based unit and integration tests, supporting more reliable deployments and fewer regression issues across projects.

Backend Developer
Technogleam

Nov 2020 – Jan 2021
Siliguri, West Bengal, India

- Built RESTful server-side APIs using Node.js, Express.js, and Sequelize ORM, supporting reliable data flow across application modules.
- Worked with frontend developers to align on API contracts and ensure consistent cross-service integration.

Freelance Backend Developer
Independent / Self-directed

Dec 2019 – Oct 2020
India

- Took on freelance backend projects and used this period to deepen practical skills in Node.js, PostgreSQL, and AWS through client work and personal projects.

Software Trainee Engineer
Carviewing Solution (formerly SHRI GOWRI SOLUTIONS)

Feb 2019 – Nov 2019
Bangalore, India

- Built an automated error detection and notification system that monitored application logs, sent email alerts to support engineers on crashes, and auto-created Jira tickets — helping reduce manual incident response time.
- Gained practical experience across the full SDLC, including debugging and version control using Git, working under senior engineer guidance.

EDUCATION

B.Tech in Computer Science and Engineering
Adamas Institute of Technology, MAKAUT (formerly WBUT)

June 2018
West Bengal, India

Higher Secondary (Class XII) – WBCHSE

March 2014

Secondary (Class X) – WBSSE

April 2012
